

Say hello to Clover

Solutions for all you do, and all you want to do.

The Clover platform is the business management and point-of-sale system that works as hard as you do.

Accept Payments Easily

Making money is the name of the game for every business. And when you make it easy for your customers to pay, it becomes easier for you to get paid. Clover accepts most payment types – credit, check, cash, debit, gift card, chip card, touchless payments such as Apple Pay® and more – and looks good doing it. Whether you just want to accept payments or build a robust business management system, Clover has you covered.

Run Your Business More Efficiently

Clover is designed to take care of all of the stuff you don't have time for – such as time sheets, payroll, marketing and accounting – so you're free to focus on the tasks you really went into business for. With Clover Dashboard you can keep an eye on sales, track inventory and oversee all aspects of your business, from pretty much anywhere. Clover provides insightful reports for you to better understand your customers and benchmark your performance against the competition.

Grow Your Business

If it were only about great products and services, you'd have nothing to worry about. But selling – and succeeding – is about so much more. It's about connecting with your customers, finding new ones and keeping all of them engaged and happy. Clover helps you do that.

Clover includes customer engagement tools that show your customers that you appreciate them and keep them coming back with promotions and a customized loyalty program. And, Clover provides the ability to create your own branded gift cards.

The Clover Family

We understand that one size doesn't fit all. That's why Clover offers a full line of solutions designed to complement the unique needs of your business and customers.

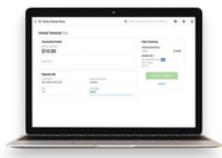

Clover Station Solo

A powerful, all-in-one POS system with one merchant-facing screen, a receipt printer and access to all of Clover's software features.

Clover Station Duo

A fast and powerful POS system with a receipt printer and a second screen that lets customers initiate payment and view the transaction.

Clover Virtual Terminal

Take payments by securely keying in card information through a web browser or invoice your customers through email and let them pay you online.

Clover Flex

Accept every payment type on the go, tableside or curbside.

Clover Go

Connect through Bluetooth® to dip or tap payments from your phone or tablet.

Clover Mini

Full-scale POS functionality in a sleek and compact device.

Clover Solutions

An all-in-one management system designed to help you take care of business, Clover offers options that allow you to right size your business solutions – and get more done than ever before.

Do More With:

Clover Customer Engagement

Connect with customers better—and faster—than ever before with features that help you send promos, increase customer loyalty with rewards and collect feedback.

Clover Check Acceptance

Safely process check and ACH payments at a cost that's typically lower than card acceptance – and with a higher approval rate.

Clover Gift Cards

Give customers away to share their love of your business by letting them buy, send and redeem gift cards on their mobile devices.

Do More With Clover:

- Accept chip card and touchless payments, such as Apple Pay
- Issue refunds
- Manage tips, tabs and authorizations
- Perform closeout reporting
- Set optional employee permissions
- Manage cash and tender types
- Apply discounts
- Manage customers
