

# Freedom Club News

Well, winter has fully settled in with colder days, but our days are beginning to get longer. We're excited to share what's ahead for 2026. The best part of what we do is take care of you, get to know you, and have a great time! We have some new destinations picked for you this year and we hope one of them will spark your interest!

Join us June 27-28 for our traditional Ladies Weekend. We are off to Lincoln, Nebraska this year! With fun, new experiences and interesting places to explore we know it's going to be a great weekend! Grab your sisters, friends, daughters, or girlfriends and treat yourself to a memorable girls' getaway filled with laughter and a whole lot of fun!

A new destination added to our calendar is Medora, North Dakota. It is home to the northern badlands, and is a historic town known as the gateway to Theodore Roosevelt National Park. Our trip is planned for August 23 through August 30. We will spend some time in the natural wonders of Yellowstone, take in the classic mountain charm of Jackson Hole, Wyoming, and make our way home through the Black Hills of South Dakota. This is a trip you will want to hear more about!! Make your reservations with Audra or Denise soon!

November in Branson, Missouri, offers cooler, crisp weather, fewer crowds, and the start of holiday magic. Freedom Club is planning to travel there November 9-13. The city buzzes with early Christmas Spirit, with lights starting to twinkle and festive events beginning. We hope to take in Sight and Sound Theatre while there. These shows offer a huge panoramic stage, elaborate sets up to 40 feet tall. Each production is a faith based story from the Bible. Silver Dollar City transforms for "An Old Time Christmas," featuring millions of lights, holiday shows, and is very festive. There are so many shows to bring in the Christmas Season!

June 6-11, 2027, we are proudly announcing a trip to the Oregon Coastline. We already have pricing and details available for this trip. We are expecting a lot of excitement to be heading to the West Coast. We will be seeing rugged cliffs, sandy beaches, and historic stops in Newport and Portland. There is pricing in this newsletter and more information at the bank you can pick up when you register.
